**DETAILED ACTION**

***Election/Restrictions***

Claims 39-44 withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 1/24/05.

***Double Patenting***

Claims 27-33 are rejected under the judicially created doctrine of double patenting over claims 1-7 of U. S. Patent No. 6460437 since the claims, if allowed, would improperly extend the "right to exclude" already granted in the patent.

The subject matter claimed in the instant application is fully disclosed in the patent and is covered by the patent since the patent and the application are claiming common subject matter, as follows: a method of producing first and second aspheric surfaces on a precision optical element.

Furthermore, there is no apparent reason why applicant was prevented from presenting claims corresponding to those of the instant application during prosecution of the application which matured into a patent. See *In re Schneller*, 397 F.2d 350, 158 USPQ 210 (CCPA 1968). See also MPEP § 804.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
